Licensing arrangements:

Individual licences are assigned to a named individual within an organisation, are non-transferable and can only be stored on the “non-networked” local drives of computers assigned specifically to the named individual.

Individual Licences			
From	To	Price/licence	Discount
1	5	£95.00	
6	19	£85.50	10%
20	55	£80.75	15%
56	+	See corporate licences below	

Corporate licences can be stored on any internal computer locations (stand alone PCs and networks), and made available to all employees via intranet or otherwise.

All licence types define the Tool Finder as confidential information provided to the client by QSB Consulting, and may not be used by, shown to, or distributed to third parties in any format.

Customisation of the Six Sigma Tool Finder

The Six Sigma Tool Finder is a complete ‘stand alone’ product and does not require customisation. However, the software is highly flexible and can be rapidly customised to a client’s specifications. Typical aspects of the Tool Finder that have been customised for previous clients include:

- Addition of corporate logo to the top graphics banner; available **FREE** on all licence formats
- Additional links from tools and templates to specific locations on a corporate intranet
- Incorporation of additional tools, terminology and acronyms
- Additional ‘standard’ templates (such as the project charter or SIPOC templates)
- Development and incorporation of a client Case Study (a Six Sigma project that has been completed within the client organisation).

Customisation is provided at an additional cost, and is quoted based on your detailed requirements. As an example, a typical customisation package is detailed below:

Typical Customisation package:

- Incorporation of corporate logo
- Addition/modification of up to 10 ‘tools and techniques’, and modification of associated text in routemap
- Addition/modification of up to 10 words or acronyms to glossary section
- One off cost: £2,000.00 GBP
